

M.J. Miller & Co.

For more than thirty years, the artists and craftsmen at M.J. Miller & Company have been designing exquisite, one-of-a-kind wildlife jewelry and gemstones for affluent sportsmen around the globe.

We are especially proud to be a part of this year's SCI 30th Anniversary Convention, and cordially invite you to visit us at Booth 1067 to view a magnificent range of pieces from our latest collection, along with distinctive jewelry and gift items from a host of international designers.

This magnificent, custom-designed Brooch/Bola Tie is hand-constructed from 30 grams of platinum and 96 grams of 18K yellow gold, accented by 4.54 carats of full cut, round diamonds. It features a crystal lion inset engraved by world-renowned artist Gernot Schluifer, expertly mounted on petrified wood.

The design and construction of this piece, which we have donated to Safari Club International for this year's auction, required two hundred hours of hand work. It is valued at \$35,000.00
